TECHNICAL SKILLS

Languages: TypeScript, Python, PHP, SQL

Backend: Node.js, Express, Laravel, FastAPI, GraphQL, Apollo

Cloud & DevOps: Google Cloud Platform (GCP), AWS (EC2, S3, Lambda, RDS, API Gateway, ECR, ECS), Github Actions, Terraform, CircleCI, Docker, Linux, Bash Scripting, Git

Databases & ORM: PostgreSQL, MySQL, Prisma

Frontend & Mobile: React, React Native, Next.js, Material UI, Tailwind, ShadCN, ReactQuery, Jotai

Testing: Playwright, Jest, React Testing Library

AI & LLM Development: OpenAI Agents SDK, Pydantic AI

EXPERIENCE

Software Engineer

August 2025 – Present

SPINS (via Eclaro)

Remote - Full Time

- Developed and maintained performant backend systems running on **Node.js**, **Express** and **GraphQL**.
- Worked on backend systems built with **Python**, **FastAPI**, **Strawberry GraphQL** and **Pydantic AI** for generating AI-powered brand insight reports for clients.
- Designed and maintained **distributed GraphQL subgraphs**, improving modularity and scalability of backend services.
- Built responsive and maintainable front-end applications with **React** and **TypeScript**.
- Deployed and managed services on **Google Cloud Platform (GCP)**, including **Cloud Run**, **Cloud SQL**, **Cloud Storage**, and **Cloud Functions**.
- Optimized **PostgreSQL** databases and implemented type-safe data access using **Prisma ORM**, improving query reliability and performance.
- Maintained a cross-platform **React Native** mobile application and resolved critical production issues in high-traffic environments.
- Improved **CI/CD pipelines** using **CircleCI**, increasing deployment reliability and automation efficiency.
- Maintained 100% test coverage across all applications by implementing **TDD practices** using **Jest** and **React Testing Library**, and contributed to modernizing a legacy system.

Software Engineer

June 2024 – August 2025

CP Health Innovations Inc.

Remote - Full Time

- Built and maintained performant backend application with **Laravel**, organizing **controllers**, **models**, **services** and business logic effectively.
- Developed and enhanced front-end features using **React**, **TypeScript**, and **Material UI**, focusing on responsive design and user experience improvements.
- Designed and updated **MySQL** database schemas and relationships to support full-stack functionality, ensuring smooth data flow between components, used **GitLab** for version control and team collaboration.
- Led the development of robust end-to-end test automations using **Playwright** to ensure application reliability and integrity in production environment.

React Native Mobile Developer

April 2024 – June 2024

Nexbridge Technologies Inc.

Malolos, Bulacan

- Engineered a full-featured **Point of Sale** mobile application from the ground up using **React Native**, delivering a production-ready product actively used by the client.

EDUCATION

National University Bulacan

Baliwag, Bulacan

Bachelor of Science in Computer Engineering

August 2020 – August 2024

- Scholarship: SM Foundation Scholarship
